

## **From Editor**

**Although I tried to collect all manuscript by the end of May, it has been completed along with World Cup. However, I have self-confident with the contents of this month, such as CEO Interview of Boeing Satellite Systems President Mr. Brinkley and etc.**

**The 20th ICSSC (International Communications Satellite Systems Conference) ended successfully with over 500 participation at Montreal, Canada from May 12 to 15. 21st ICSSC will be held in Yokohama in April 2003. JFSC is fully backing this convention and we would like to ask all readers support, also.**
