The date of 2002 FIFA World Cup soccer game is coming to there, just around the corner. The soccer game stadium in Yokohama is located just the side in my company and in our company, it is examining that at the date of the soccer games in Yokohama be carried out to a special holiday as the measure against hooligans. I searched for the ticket far and wide, but I couldn't find it, somehow. Since I was unavoidable, I decided to tale watching games on television it regrettably.

The 22nd edition of SJR magazine is of excellent result in the effort by the editorial member of the committee. We are expecting to hear several impressions from readers.
